Direct Hay Weighted Average Report for week ending 6/11/2021

Volume		
This Week	Last Reported ( )	Last Year

Please Note: The above volumes (tonnage, acres, and bales) listed on this USDA LPGMN report are for confirmed trades only, it does not include estimated volume (tonnage) for bids or offers to the trade.

Compared to last week sun cured alfalfa pellets and hay cubes sold steady. First cutting hay is underway in some areas of the state. All contacts stated their phones have been busy with buyer inquiry. It is interesting there is so much demand for new crop hay that hasn't been produced yet!

Prices are dollars per ton and FOB they field or hay barn unless otherwise noted.
